ALBIZIA JULIBRISSIN ' ROSEA'

WILSON SILK TREE

ZONE 6

The silk tree (*Albizia julibrissin*), also known as mimosa, is a fast-growing, deciduous tree native to Asia, typically reaching 20 to 40 feet tall with a broad, spreading crown and distinctive, fern-like leaves. It is valued for its showy, fragrant, pink pom-pom-like summer flowers, but it is considered invasive in many regions due to its prolific seeding and ability to outcompete native plants.
